Note: The purpose of a review is to prolong the current use of hearing aid/s currently fitted to the client, therefore an item 930/940 should not be routinely claimed in instances where a refit is due to take place. However, if you can support a reason for a review and clearly document on the client file that sufficient services were provided, including testing, adjustments etc. on the current devices, and this was not successful requiring a move to refit then the program would accept an item 930/940 to be claimed.
